My people are destroyed for lack of knowledge:
because thou hast rejected knowledge, I will also
reject thee, that thou shalt be no priest to me:
seeing thou hast forgotten the law of thy God, I
will also forget thy children.
Hosea 4:6

There are those with power who have evil plans for
us. Demoralization is their key.

Step 1 to destroy us is by eroding Judeo-Christian
morals. It makes sense for when the Foundation is
removed people will lose their way. The radical
gender ideology being forced on young people is part
of that process.

FBI Special Agent W. Cleon Skousen in 1958 in his
book *The Naked Communist* wrote a list of 45 goals.
It has become legendary, to the point of being
officially read and recorded in the 1963 Congressional
Hearing. Here's some on list:

16. Use technical decisions of the courts to weaken
basic American institutions by claiming their
activities violate civil rights.
17. Get control of the schools. Use them as
transmission belts for socialism and current
Communist propaganda. Soften the curriculum. Get
control of teachers' associations. Put the party line in
textbooks.
18. Gain control of all student newspapers.
19. Use student riots to foment public protests against
programs or organizations which are under
Communist attack.
20. Infiltrate the press. Get control of book-review
assignments, editorial writing, policy-making
positions.
24. Eliminate all laws governing obscenity by calling
them "censorship" and a violation of free speech and
free press.

OUR INSTITUTIONS HAVE BEEN HIJACKED!

"I think your point that public education needs
to be a site of **socialist organizing**, I think
libraries really do, too, and that happens" per
Emily Drabinski President of American Library
Association.

FOUNDATION MATTERS

EXCERPT FROM 1819 NEWS 1/16/24

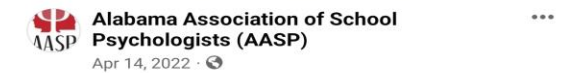

"It's clearly a victory for Alabama but also a victory
for children across our country," Marshall said.
"We've had multiple states that have weighed in and
said, 'we're not going to experiment on America's
kids. We're not going to allow them to become the
victims of abuse.'"

Responding to critics who bashed Alabama and other
states that enacted similar laws, Marshall claimed he
and his office had spent the time fighting for the
Vulnerable Child Compassion and Protection Act
(VCCAP) in court involved looking at the science of
gender dysphoria and concluding that mainstream
methods for transitioning children are not in line
with the science. He also took a passing shot at U.S.
Assistant Secretary for Health Rachel Levine for
advancing the Biden administration's "radical gender
ideology."

"We are talking about science," Marshall continued.
"We've looked at the research and understand what
we need to do to help kids that are suffering from
gender dysphoria, and it's not off-label use of
medication. It's clearly not radical surgeries on
children. But instead, there are appropriate care that
can be done. That can take place in Alabama and the
other states that have adopted these similar laws. But
we don't need to be experimenting on kids. And
despite what Admiral Levine and others may
advocate, this is not about the best interest of kids.
This is a radical gender ideology of this
administration manifesting itself in the way that we
take care of America's children."

25. Break down cultural standards of morality by promoting pornography and obscenity in books, magazines, motion pictures, radio, and TV.
26. Present homosexuality, degeneracy, and promiscuity as “normal, natural, healthy.”
27. Infiltrate the churches and replace revealed religion with “social” religion. Discredit the Bible and emphasize the need for intellectual maturity, which does not need a “religious crutch” [i.e., this basically predicted the rise of “social justice”].
28. Eliminate prayer or any phase of religious expression in the schools on the ground that it violates the principle of “separation of church and state.”
29. Discredit the American Constitution by calling it inadequate, old-fashioned, out of step with modern needs, a hindrance to cooperation between nations on a worldwide basis.
30. Discredit the American Founding Fathers. Present them as selfish aristocrats who had no concern for the “common man.”
32. Support any socialist movement to give centralized control over any part of the culture—education, social agencies,

NASP is committed to advancing policy and practice that ensure ALL students have access to the necessary social, emotional, behavioral, and mental health supports. Originally published in 1970 and set in 1941, *The Bluest Eye* tells the story of Pecola, an African-American girl who grows up during the Great Depression. The narrative primarily revolves around her experience of feeling “ugly” as a result of her mannerisms and dark skin. This drives her desire for blue eyes, which she equates with whiteness and, by extension, beauty. The book wrestles with a number of issues, including racism, sexual violence, trauma, and shame. *The Bluest Eye* is the first of nearly a dozen novels written by Toni Morrison, who received the Nobel Prize for Literature in 1993.

The Bluest Eye is consistently considered one of the most significant works of 20th-Century American literature, often included on required reading lists for upper high school and college level English classes. We fully realize that this book may not be relevant to or appropriate for all readers and that its depictions of racism and sexual violence may upset many individuals. However, per the Collection Development Policy, “the DHCLS collection may include items that may be unorthodox or unpopular with the majority or controversial in nature.... Users make their own choices as to what they will use based on individual interests and concerns.” Also, taken as a whole, the book has extensive artistic, creative, and cultural merit. For these reasons, *The Bluest Eye* is a valuable part of our collection, and as such, we will retain it as cataloged.

Additionally, per the Collection Development Policy, decisions reached through the materials reconsideration process will be considered final for a period of five years from the date of issuance. Any further Requests for Reconsideration of Library Materials for this title will be dismissed through October 25, 2028.

Ideological Warfare- Open Your Eyes

Bezmenov explained that the most striking thing about ideological subversion is that it happens in the open as a legitimate process. “You can see it with your own eyes,” he said. The American media would be able to see it, if it just focused on it. Here’s how he further defined ideological subversion:

“What it basically means is: to change the perception of reality of every American to such an extent that despite of the abundance of information no one is able to come to sensible conclusions in the interest of defending themselves, their families, their community, and their country.”—

***And we can’t just do it by getting rid of the books in the library. I’m all for that, but that’s just a little teensy -weensy piece of the fight. One little piece.**

"This has nothing to do with censorship, and as to is this the direction we want our society going?" When they start picking on little eight -year -olds and trying to centralize and being enrolled. At some point someone needs to stand up and scream "I am not going to take it anymore." We need to do it as, you know, in love for certain but still we need stands that we're not going to take it anymore"- Doctor

“50years, 3 percent identifying as LGBTQ and all the rest of it, and then all of a sudden, boom, 20 percent? How did we get there in the space of 17 years? Powerful, Powerful propaganda, proselytizing materials. That's how it is. When you look at those books in the library, what are they? Evangelistic pamphlets, evangelistic brochures, evangelistic books, trying to win a new generation over to a neo -paganism religion. And they are winning. They’re winning. They’re getting them as evidence by the data. And so folks we got to be careful. We can't let them, we cannot concede this”. -Counselor
